

Malahat LNG

Malahat LNG Project Update

Malahat Nation and Steelhead LNG are no longer exploring the proposed Malahat LNG project on the Malahat Nation-owned Bamberton Industrial Lands. Steelhead LNG is grateful for the time and effort of Malahat Nation's Chief and Council, administration and community in considering the Malahat LNG project as part of their comprehensive portfolio of economic development activities.

Steelhead LNG would like to thank and acknowledge the many Malahat members who contributed more than 2,200 hours of work as Field Assistants on the early environmental studies. The information and data that we collected together has provided a better understanding of the Bamberton Lands and surrounding areas, and we hope can be used to support future Malahat Nation endeavors.

For more information on the decision, [click here](#)

Steelhead LNG is continuing to explore the Kwispaa LNG project (formerly Sarita LNG), located southwest of Port Alberni. For information Kwispaa LNG, visit steelheadlng.com.
