

Brentwood Bay—Navigating The Issues Survey

The District of Central Saanich Council wants to ensure that we know what issues are of most importance to the community, and we will work closely with the community, Tsartlip First Nation and other levels of government to come up with long range solutions.

Many municipalities with coastline struggle with similar issues, complicated by the fact local, provincial and federal governments have different jurisdictional authority and responsibility.

To assist with finding solutions to the highest priority issues, Council would like to hear from residents, businesses and visitors to the region about their concerns. Staff and Central Saanich Police Department will also be reaching out to boaters in the bay. Information collected in this survey will be compiled and submitted to the District of Central Saanich Council.

Thank you for completing this survey.

It can be returned to Anglers Anchorage Marina
or the District of Central Saanich office.
