

TSARTLIP Nurse Update

January 29th, 2019 Hearing Testing:

The Tsartlip Health office is offering free 15-minute-long hearing screening to check community members for any hearing difficulties.

If there is hearing loss, or need for any follow up we will make appointments for community members to get hearing aids or further testing.

The hearing test will be with *HEAR Central Saanich*.

The testing will be held in the Nurse's Treatment Room

Tuesday January 29th, 2019

NOON to 2pm

Naloxone (Narcan) Kits & Training:

Over 99 Tsartlip community members have been trained to use naloxone (Narcan) to save lives associated with accidentally taking too much pain medication or a "bad batch" of drugs.

Some Elders have recommended placing the black naloxone kits above our fridges so people know where to look if they need one.

Next Naloxone (Narcan) Kits & Training:

Training is open to all community members and friends Wednesday, December 19th from 12-1 at the Tsartlip Health office with Nurse Kirsten to be trained and get your own naloxone kit.
